

Integra - the comprehensive event management system

Organising the organisers

We help you with registration, event planning, project management and much more.

We enable and support you over the entire lifecycle of your event.

All your stakeholders have direct access to enter their data and receive reports relevant to them, saving you time and money.

Our mobile app gives participants a live, personalised event schedule and is a useful communications tool.

Do you want all your event data online in one place with no more out-of-date spreadsheets?

Why use several separate systems when you can use Integra?

8 formal concerts	participating in events	transactions
35 performing choirs	120 “events” tracked,	15,000 updates tracked
1,000 delegates	over 400 updates	700 mobile app
200 songs, including	6,500 logins	installations
technical requirements	600 password resets	88,000 mobile app
20 backing tracks	3,600 emails	screen views

What you say about us

“I wish we had used your system earlier in our planning.”

“Thank you so much for your responsiveness to questions”

“It has been a pleasure working with you, I have no concerns about recommending Integra”

“We could not have done it without you”

Integra fees are easy to understand, so you can budget with our "all-in" usage fee, based on the number of "Active Users" in the system.

This will include multiple event registrations, membership fees, volunteer sign-ups, the Schedule mobile app, the extensive planning integrated with venues, spaces, participants, delegates and the use all our system features for each User for whole your event cycle.

Integra Features support a variety of events, festivals, conferences, competitions, tournaments, organisations and groups. We work with you to support you to deliver great events. We train your team and mentor you to ensure that all Integra features support you and your team to deliver.
